

# Absolute VG-SR

## Advantages

- Camfil SafeRange™ product series specifically designed for shooting range applications
- Plastic frame. no metal parts, lightweight, easily disposed of with a crushable and incinerable frame.
- High filter surface area offers low pressure drop for energy savings and longer life.
- Airflow capabilities up to 2400 cfm.

**Description:** High capacity HEPA/ULPA grade filter in an all-plastic enclosing frame with poured-in-place sealing gasket.

**Typical applications:** Indoor firing ranges in side access housings or built-up banks.

**Efficiency:** 99.97% at 0.3 micron.

**Media:** High dust holding capacity microfine glass media formed into individual mini-pleat media packs and assembled into a V-bank filter configuration.

**Recommended final pressure drop:** Consult factory. Rule of thumb: change filter when the initial pressure drop doubles.

**Temperature:** Maximum continuous operating temperature of 155° F (68° C).

**Ratings:** Tested in accordance with IEST Recommended Practice for Testing HEPA Filters.

For more information see Literature Absolute VG-SR. Part of the SafeRange Series of Camfil Products.

Model Number	Efficiency	Nominal Dimensions (W x H x D inches)	Airflow Capacity (cfm)	Initial Resistance (inches w.g.)	Media Area (sq.ft.)	Shipping Weight (lbs.)
855010-586		24 x 12 x 12	900	1.00	174	15
855010-585	99.97% at 0.3 micron	24 x 24 x 12	2000	1.00	390	28
855010-584		24 x 24 x 12	2400	1.10	431	29
